USER TESTIMONY

"We needed a service that can sell globally, deal with international taxation and that provides flexibility in how we price and sell our apps. FastSpring has enabled us to achieve all of these items with the minimum of fuss."

Mike Daley

"We've sold more than \$1.5 million USD of software licenses through FastSpring in 3 years. It literally made the difference between having a profitable startup or not, as the overall costs of implementing e-commerce, plus the high level of trust achieved with their platform, lead to good sales right from the start."
